DS1

SPENDOR

MADE FOR MUSIC. DESIGNED FOR YOU.

A sophisticated, compact 2-way, surface loudspeaker. The DS1 delivers music with exceptional resolution and a vibrant realism for when conventional loudspeakers are not desired. It delivers low frequencies with power, scale and authority with a cabinet depth of 135mm. It is easy to place in real-world listening rooms, very capable, and compatible with all good amplifiers. With a short slim enclosure and smart modern finishes, the Spendor DS1 is entirely at home in any listening environment.

HIGHLIGHTS

- A simple but ingenious wall mounting system secures the DS1 to a flat surface, whilst decoupling the back of the cabinet from transferring any unwanted vibrations, which greatly enhances sonic performance.
- The proprietary 18cm Spendor EP77 polymer cone mid-bass drive unit mounted in a slim sophisticated cabinet, helps the DS1 deliver a room filling sound with projection, character and sheer entertainment far beyond its size.
- With room friendly bass that is taut and controlled, smooth midrange and an extended treble, the DS1 delivers a big, full-bodied sound. This allows the DS1 to be used for front channel stereo duties as well as being a perfect surround loudspeaker, offering 2.0, 2.1, 5.1, 6.1, 7.1 and Dolby Atmos configurations to the Spendor enthusiast.
- Designed and Manufactured in the UK
